

0:0:0.0 --> 0:0:1.540

SHASHVAT JOSHI

Remember, I'll just start the meeting.

0:0:3.610 --> 0:0:4.0

SHASHVAT JOSHI

OK.

0:0:5.490 --> 0:0:28.790

SHASHVAT JOSHI

Yeah, this is 3 points to be discussed from my side. First is that for the group task 2.3, so students have been saying that they have been issues that the task was in showing to all the students on on track. So if you guys can just have a look through these tasks on your on track to check if it's showing your name on submission file. If it's showing there then everything is fine. So just have a look through this one.

0:0:31.80 --> 0:0:54.10

SHASHVAT JOSHI

Second point is regarding the cyber security team. They are organizing workshops regarding any service security requirements or vulnerabilities that any of the team in Redback might require. Now at this point till week five and six, I think we will be working on completing our project to a certain point. So if you feel like there's a need, please feel free to join the workshop. I think there is.

0:0:54.920 --> 0:1:0.70

SHASHVAT JOSHI

I think there is one schedule for tomorrow. You can check out on their public channel if anyone interested.

0:1:1.740 --> 0:1:7.740

SHASHVAT JOSHI

I'm curious regarding the employee of the week thing. I think everyone knows how this goes, so best of luck for this thing.

0:1:8.940 --> 0:1:19.30

SHASHVAT JOSHI

Regarding this, I think both the project leads are here. I was looking through the group chat and I think both teams both of your team members are OK with the recording being used for assessing the employee thing, right?

0:1:19.980 --> 0:1:21.160

SHASHVAT JOSHI

I just wanted to confirm it.

0:1:21.980 --> 0:1:26.290

ANH QUAN HUA

Yeah, I think my team is alright. No one has said anything, so I guess that's alright.

0:1:27.110 --> 0:1:30.140

SHASHVAT JOSHI

OK, I'll be using that for those sales. Same for you, Chris.

0:1:38.690 --> 0:1:39.890

SHASHVAT JOSHI

Yeah, yeah, yeah.

0:1:31.720 --> 0:1:40.270

HYUN DONG KIM

Yeah, yeah, sure. You, you mean the our, you know, the the the data group that you created, right? The chat. Yeah. Cool.

0:1:40.920 --> 0:1:41.260

SHASHVAT JOSHI

OK.

0:1:42.250 --> 0:1:46.670

SHASHVAT JOSHI

Yeah. Then we can just start with the team progress. Yeah. Anyone can go.

0:1:47.480 --> 0:1:47.830

SHASHVAT JOSHI

I.

0:1:49.900 --> 0:1:50.810

HYUN DONG KIM

But yeah.

0:2:1.0 --> 0:2:1.300

SHASHVAT JOSHI

Yeah.

0:1:49.160 --> 0:2:20.730

ANH QUAN HUA

Yeah. So for our group, we are planning to have a meeting right around 6:00 to discuss because last week I told everyone to take a look at general datasets, right? I've come up with a few and on today meetings, I'm going through firstly the data sets and get everyone to agree on maybe one or two that we can work on to produce a report and then apply it to a table dashboard. My overall then discuss my overall plan for the team.

0:2:22.120 --> 0:2:22.430

SHASHVAT JOSHI

Yep.

0:2:31.980 --> 0:2:32.250

SHASHVAT JOSHI

Hmm.

0:2:20.800 --> 0:2:34.160

ANH QUAN HUA

This semester, which is probably my plan like I see overall general goal this semester is probably just to create like a a template process to implement a Tableau dashboard so.

0:2:34.90 --> 0:2:34.920

SHASHVAT JOSHI

Yeah, that would work.

0:2:35.710 --> 0:2:43.230

ANH QUAN HUA

When we got a dataset, what should we do? How should we define it? What are the goals and then proceed with all the things? So yeah.

0:2:44.210 --> 0:2:49.860

SHASHVAT JOSHI

So is there any specific topic that you have decided or is that gonna be decided also like by next week?

0:2:50.650 --> 0:2:51.230

ANH QUAN HUA

Uh, it's.

0:2:50.510 --> 0:2:52.480

SHASHVAT JOSHI

On the data center like area.

0:2:52.210 --> 0:2:56.770

ANH QUAN HUA

So the dataset, yeah, it's currently decided just after this meeting, so.

0:2:58.870 --> 0:2:59.100

ANH QUAN HUA

Yep.

0:2:58.530 --> 0:3:7.850

SHASHVAT JOSHI

So can you also just tell me if you know what each member is upscaling in so it will be easier for me to assess on the technical part for the employee thing.

0:3:8.460 --> 0:3:11.350

ANH QUAN HUA

Yeah, I'm not sure about that part yet, but it's coming up.

0:3:10.860 --> 0:3:17.940

SHASHVAT JOSHI

OK. I'll just mention that in the chat. No problem. Yeah. So by next week, I think you guys will be starting with the sales part, right?

0:3:22.870 --> 0:3:23.220

HYUN DONG KIM

Yes.

0:3:26.820 --> 0:3:27.130

SHASHVAT JOSHI

Hmm.

0:3:29.860 --> 0:3:30.250

SHASHVAT JOSHI

Yep.

0:3:19.950 --> 0:3:31.590

ANH QUAN HUA

Yeah. Yeah. My plan for next week is so after today meetings, we hope to agree on a data set that we can work on and produce some analysis on it. So there should be a report.

0:3:32.840 --> 0:3:37.300

ANH QUAN HUA

Probably somewhere around the at the start of week five if possible.

0:3:37.790 --> 0:3:38.90

SHASHVAT JOSHI

Yeah.

0:3:38.110 --> 0:3:40.200

ANH QUAN HUA

Because yeah, so they have a waiter.

0:3:39.260 --> 0:3:47.270

SHASHVAT JOSHI

I just. Uh, yeah. If you just look to your on track, I think they have reduced a deadline by a week as compared to last harvester.

0:3:47.980 --> 0:3:48.790

ANH QUAN HUA

Oh really?

0:3:52.290 --> 0:3:52.600

ANH QUAN HUA

You know.

0:3:48.10 --> 0:3:54.960

SHASHVAT JOSHI

Because I think last time we had one week extra for the four tasks, the pass query distinction and the higher distinction one.

0:3:55.460 --> 0:3:55.660

ANH QUAN HUA

Yep.

0:3:56.380 --> 0:4:2.740

SHASHVAT JOSHI

Yeah. So I'm just hoping you guys would be able to, if those who I mean for quick distinction, you will be able to collect the evidence. Is this that?

0:4:5.780 --> 0:4:8.130

SHASHVAT JOSHI

Uh, yeah, Chris, your team.

0:4:9.70 --> 0:4:10.300

HYUN DONG KIM

Well, we are.

0:4:17.70 --> 0:4:17.380

SHASHVAT JOSHI

Hmm.

0:4:11.100 --> 0:4:26.130

HYUN DONG KIM

I don't know. Like we are all of the all of the place like as in somebody can make it to this time they're time. So I'm just trying to like the goal is to, you know, pass on the correct information for the group who can join today for the for our first meeting.

0:4:26.430 --> 0:4:26.820

SHASHVAT JOSHI

Show.

0:4:26.870 --> 0:4:36.360

HYUN DONG KIM

And I myself is actually, you know, just catching up with, you know, what I need to do and stuff like that. So I will have more.

0:4:37.510 --> 0:4:40.670

HYUN DONG KIM

Solid plain out, say from next week on. What?

0:4:43.20 --> 0:4:43.450

SHASHVAT JOSHI

Yeah.

0:4:43.660 --> 0:4:54.80

HYUN DONG KIM

What? Like you know what I mean? Like this week only it's not like from next week. That's when I'll probably target the some product deliverables to be actually done and stuff like that.

0:4:55.340 --> 0:5:5.560

SHASHVAT JOSHI

Yeah, that's OK. Just make sure that both of the teams like they are able to complete the task because I they're due dates are coming. I don't know if they're gonna be extending that.

0:5:9.880 --> 0:5:10.130

HYUN DONG KIM

Yeah.

0:5:9.860 --> 0:5:11.900

ANH QUAN HUA

Yeah, yeah, I understand. Answer.

0:5:13.360 --> 0:5:13.850

ANH QUAN HUA

Yep, Yep.

0:5:6.240 --> 0:5:14.70

SHASHVAT JOSHI

I think they should be, but we can't take the risk. So you guys know how it works. We have been, you know, with that.

0:5:29.590 --> 0:5:30.30

ANH QUAN HUA

All right.

0:5:15.890 --> 0:5:40.880

SHASHVAT JOSHI

Yeah, one more thing is for the algorithm team, they have added one more topic is called cancer detection. So currently I have joined our team. I'll be announcing that later on in your group section. So if anyone is interested please let me know. And one more thing if both of the project leads can just make a list of what each person is, upskilling it so that I can use that also for the criteria for assessing the employee thing.

0:5:41.840 --> 0:5:43.180

ANH QUAN HUA

Yep. OK. OK.

0:5:43.540 --> 0:5:46.710

HYUN DONG KIM

Sorry, what was it again? Just at least of upskilling.

0:5:47.850 --> 0:5:48.560

HYUN DONG KIM

For me to Amber.

0:5:52.800 --> 0:5:53.130

HYUN DONG KIM

Ohh yeah.

0:5:59.960 --> 0:6:0.200

HYUN DONG KIM

Yep.

0:6:9.220 --> 0:6:9.730

HYUN DONG KIM

Yep, Yep.

0:5:47.720 --> 0:6:15.300

SHASHVAT JOSHI

The skill gap scaling, it's just the skill they have mentioned in their last 1.1 the last question. Yeah, like in which skill? They are scaling all. Like say next next month or this trimester. So I'll be using that for cross checking in the like in your meetings you will be like showing your screens right Jupyter notebooks or Colab notebooks, something like that. Then you might be explaining the codes, anything that might be there. So it would be easier for me to, you know.

0:6:16.60 --> 0:6:20.390

SHASHVAT JOSHI

Just check the person who is doing the work, who is now. It's just that.

0:6:19.940 --> 0:6:20.440

HYUN DONG KIM

OK.

0:6:21.950 --> 0:6:22.300

HYUN DONG KIM

Awesome.

0:6:22.20 --> 0:6:22.420

ANH QUAN HUA

But.

0:6:23.730 --> 0:6:24.470

SHASHVAT JOSHI

Uh.

0:6:23.940 --> 0:6:26.610

ANH QUAN HUA

So that's right. Can I ask something about the Europe map?

0:6:27.410 --> 0:6:28.210

SHASHVAT JOSHI

Yeah, go ahead.

0:6:34.780 --> 0:6:35.360

SHASHVAT JOSHI

Uh.

0:6:28.620 --> 0:6:36.210

ANH QUAN HUA

Uh, how? How details should the woman be like? Is it the road not just for week one to six? Or is it for the whole semester?

0:6:36.450 --> 0:6:37.940

SHASHVAT JOSHI

I'll just make it to the next month and.

0:6:41.390 --> 0:6:41.670

ANH QUAN HUA

But.

0:6:43.630 --> 0:6:43.940

ANH QUAN HUA

Mm-hmm.

0:6:45.680 --> 0:6:47.680

ANH QUAN HUA

Yeah. Yeah, yeah, yeah. Alright.

0:6:40.870 --> 0:6:48.20

SHASHVAT JOSHI

Yeah. Just make it till week six because week seven will be that Sprint thing. So yeah, so that's that's fine.

0:6:48.540 --> 0:6:49.620

ANH QUAN HUA

OK, got it. Got.

0:6:49.930 --> 0:6:50.720

SHASHVAT JOSHI

And because uh.

0:6:49.650 --> 0:6:51.830

HYUN DONG KIM

And when was the road map due? Again, sorry.

0:6:55.820 --> 0:6:56.570

HYUN DONG KIM

OK.

0:6:52.950 --> 0:6:59.970

SHASHVAT JOSHI

Ohh it's Friday. You can give me on Sunday. Also it works. It's not a hard and fast deadline. I just give it just like that. Yeah.

0:6:59.560 --> 0:7:0.70

HYUN DONG KIM

All right, cool.

0:6:59.740 --> 0:7:0.210

ANH QUAN HUA

Yeah, yeah.

0:7:0.940 --> 0:7:3.910

SHASHVAT JOSHI

Sunday also was, I mean, I myself is making sense. Smile.

0:7:5.80 --> 0:7:5.350

HYUN DONG KIM

So.

0:7:4.420 --> 0:7:8.710

ANH QUAN HUA

Yeah. Yeah, because I got a lot of weekly tasks, so it might be a little bit busy on the weekends.

0:7:10.170 --> 0:7:10.560

ANH QUAN HUA

Yeah.

0:7:8.370 --> 0:7:12.80

SHASHVAT JOSHI

Yeah, I say might also called. I think we also doing same unit so I know.

0:7:13.310 --> 0:7:13.640

SHASHVAT JOSHI

Yeah.

0:7:12.460 --> 0:7:16.550

ANH QUAN HUA

Yeah, the advance outdoor right advance outdoor and funcoland.

0:7:15.930 --> 0:7:18.360

SHASHVAT JOSHI

Yeah. And that distributors, so I know.

0:7:19.470 --> 0:7:19.830

SHASHVAT JOSHI

Yeah.

0:7:17.600 --> 0:7:24.480

ANH QUAN HUA

Yeah. Yep. Both have and. I have another subject that is also on weekly task, so I've got a lot of.  
Yeah.

0:7:25.210 --> 0:7:28.450

SHASHVAT JOSHI

And it's a lot of too much, too much thing is going on.

0:7:28.270 --> 0:7:29.630

ANH QUAN HUA

Yeah, too much too much.

0:7:29.580 --> 0:7:34.640

SHASHVAT JOSHI

Yeah, OK, I'll just stop this recording. I think most of this thing has been discussed.

0:7:35.120 --> 0:7:36.710

ANH QUAN HUA

Yeah, that's fine for me.

0:7:36.400 --> 0:7:37.370

SHASHVAT JOSHI

Give me one minute.
